GREEN FILM CONTEST SEEKS SUBMISSIONS!

SUBMIT YOUR ENTRY BY JUNE 25, 2024

The One Earth Young Filmmakers Contest (non-profit) is free for students to enter, and prizes go up to $1,000 in scholarships, plus matching gifts. The contest started in Oak Park but is now international. Students from universities all over Chicago have won in the past including DePaul!

Anyone ages 8-25 can enter the contest to create a short environmental film that inspires change and action. Learn more about this great opportunity at: HTTPS://WWW.ONEEARTHFLMfest.ORG/CONTEST-DETAILS

YOUNG FILMMAKERS CONTEST 2024
Submit Your Film

Win up to $1,000 scholarships and cash prizes. Five $1,000 matching gifts for sustainability organizations of your choice.

Third grade through your grad with a short film or story that demonstrates one of the following: A powerful statement about the environment, a personal story about an environmental issue, or an educational film that inspires change.

Create a short environmental film that inspires change in others. Share your film with industry professionals at the One Earth Film Festival in March 2023. Show off your skills. Meet your peers and colleges nationwide. Qualify for Miller Awards to garner points toward your awards.

For details & questions go to oneearthfilmfest.org/contest-details

Submissions accepted now through June 25, 2024
DURING AUTUMN 2022 AND SPRING 2023, STUDENTS IN TWO ENVIRONMENTAL SCIENCE COURSES (ENV 204 WITH INSTRUCTOR MARGARET WORKMAN AND ENV 202 WITH INSTRUCTOR ISIDORE UDOH) PARTICIPATED IN A GLOBAL LEARNING EXPERIENCE (GLE) PROJECT WITH STUDENTS FROM THE UNIVERSITY OF CALABAR IN NIGERIA. THIS COLLABORATIVE PROJECT WAS AN EDUCATIONAL AND ARTISTIC FORUM FOR SHARING STORIES ABOUT PERSONAL AND COMMUNITY EXPERIENCES AND RESPONSES TO CLIMATE CHANGE. SHARING CLIMATE STORIES HELP BUILD AN INCLUSIVE AND EFFECTIVE MOVEMENT TO CONFRONT THE CLIMATE CRISIS. IN THIS PROJECT, STUDENTS RECORDED AND SHARED THEIR PERSONAL CLIMATE STORIES. IN ADDITION, THEY CONDUCTED INTERVIEWS OF PEOPLE WITHIN THEIR LOCAL ENVIRONMENTS AND NETWORKS TO RECORD THEIR PERSONAL ORAL HISTORIES OF EXPERIENCE WITH CLIMATE CHANGE IMPACTS. A SHORT FILM THAT COMPARED THE EXPERIENCES WITH CLIMATE CHANGE IMPACTS BETWEEN THE TWO COUNTRIES WAS CREATED.

GLOBAL LEARNING EXPERIENCE PROJECTS HELP PREPARE STUDENTS TO BECOME GLOBAL CITIZENS WHO WORK TOGETHER TO CREATE SOLUTIONS. GLES ARE A TECHNOLOGY-ENABLED LEARNING APPROACH EMBEDDED WITHIN EXISTING DEPAUL COURSES. THIS WAS THE SECOND GLE PROJECT THESE INSTRUCTORS HAVE CONDUCTED WITH UNIVERSITIES IN NIGERIA. IN THE FIRST PROJECT, STUDENTS WORKED TOGETHER TO MONITOR IMPACTS OF FOSSIL FUELS ON THEIR COMMUNITIES.

SEE SOME AWESOME PICTURES FROM THIS EXPERIENCE ABOVE AND ON THE NEXT PAGE!
Pictures from both the student classes here at DePaul and at the University of Calabar in Nigeria.

Snippets from the interviews students participated in!
Hi Everyone!

My name is Ty Ferguson, and I am the new ENV Administrative Assistant! I wanted to take advantage of this Staff Spotlight and introduce myself to everyone far and wide across the department. Some quick facts about me are that I graduated from Loyola University with degrees in Environmental Science and Studies (I also minored in Anthropology because I found it wildly interesting). In school I dipped my toes in a variety of different areas of environmentalism. I spent time in a biodiesel lab working on converting used vegetable oil into useable fuel and a ton of different products like soap! But I would say my main interest was in the world of urban agriculture.

So much so that after graduation I worked for The Talking Farm close by in Skokie, IL where I was their Farmer’s Market Coordinator. I had such a great time working on the farm and getting the chance to lead interns and connect with the broader Chicagoland community with our produce! I still love urban ag but am beyond excited to be here at DePaul. The ENV department, students, and faculty/staff are so innovative and fantastic that I cannot wait to get to work.

You’ll find me in McGowan South 203 with my door (and email) always open if anyone has any questions! I will also be taking over the newsletter so if you have any stories or events or anything you want showcased don’t be afraid to send it to me!

I am so stoked to be here and will get to know everyone very soon as classes start next week! Now, enjoy a little photo collage of my life.

-Ty Ferguson
NATIONAL AUDUBON SOCIETY - SUMMER TECHNICIAN POSITION

The National Audubon Society is a nonprofit conservation organization that protects birds and the places they need today and tomorrow. We work throughout the Americas towards a future where birds thrive because Audubon is a powerful, diverse, and ever-growing force for conservation. Audubon has more than 700 staff working across the hemisphere and more than 1.5 million active supporters.

They are looking for Lead Survey Technicians ($18/hr) and Team Survey Technicians ($15/hr) with an estimated summer employment from May 1 to July 31 (dates may vary due to river conditions).

POSITIONS OPEN UNTIL FILLED, LEARN MORE HERE.

THE MORTON ARBORETUM - SUMMER REU PROGRAM

The Center for Tree Science Research Experiences for Undergraduates (REU) program is now accepting applications for summer 2024. The program includes a $6,250 stipend, covers housing and travel expenses, and runs from May 28 to August 2, 2024. The program uses trees as model systems to investigate questions related to evolution, ecology, conservation, and management in natural and built environments.

APPLICATIONS ARE DUE FEBRUARY 2, 2024 (11:59 PM ET).

-APPLY NOW-

SUMMER UNDERGRAD INTERN - CHICAGO BOTANIC GARDEN

We provide budding scientists opportunities to participate in all stages of research and build science communication skills to grow personally and professionally.

Participants will be trained in all stages of research, from hypothesis formulation through experimental design, data collection, analysis, and ultimately presentation of results through a public poster and video symposium. The program encourages interns to participate in a near-peer mentoring network which includes high schoolers to Ph.D. level scientists. Additionally, there may be opportunities to present at national scientific meetings or publish findings in peer-reviewed journals.

APPLICATIONS ARE DUE FEBRUARY 9, 2024
GARDEN CLUB OF AMERICA SCHOLARSHIPS

The Garden Club of America is a nonprofit national organization composed of 199 member garden clubs with almost 18,000 club members who devote energy and expertise to projects in their communities and across the United States. Founded in 1913, the GCA is a leader in horticulture, conservation, creative arts, historic preservation, and environmental protection.

The purpose of The Garden Club of America is to stimulate the knowledge and love of gardening, to share the advantages of association by means of educational meetings, conferences, correspondence, and publications, and to restore, improve, and protect the quality of the environment through educational programs and action in the fields of conservation and civic improvement.

You can find specific scholarships for a variety of different subject areas! Both graduate and undergraduate opportunities available.

FELLOWSHIP & INTERNSHIP POSITION - CITIZENS’ CLIMATE LOBBY

CCL is a national nonprofit organization that builds grassroots support for climate legislation. I’m reaching out today to share some opportunities that may be of interest to your students and learn how we can better support your institution.

We are currently recruiting students and recent graduates to join our team as interns or fellows. We have opportunities with a variety of different departments that may appeal to students across many disciplines. These experiences provide valuable work experience, networking opportunities, and may include academic or financial benefits.

COMMUNITY STEWARDSHIP PROGRAM – THE NATURE CONSERVANCY
This role would be working directly with the CSP Manager to support the volunteer stewards that care for park district natural areas and the more than 4000 volunteers that attend workdays every year. The work itself is varied and involves everything from ensuring volunteers have necessary supplies, to helping facilitate workdays, to engaging with the public, to battling invasive species, and everything in between. In short, this person is both a behind the scenes wizard ensuring smooth operations and an ambassador for Chicago’s natural areas and the communities and people that care for them.

This is a part-time (20 hours/week), permanent position at $21.68/hr. It will be another shared role between TNC and the Chicago Park District and reports to the CSP Manager. The application closes on January 19, 2024 at 11:59 PM EST.

**MS PROGRAM -PURDUE UNIVERSITY FORT WAYNE**

The Department of Biological Sciences at Purdue University Fort Wayne is accepting applications for Fall 2024 admission to our Master of Science degree program. Faculty within the department teach courses and conduct research in areas of population and community ecology, organismal physiology, cellular biology, genetics, and molecular biology.

A limited number of teaching assistantship positions (TAs) are available from the department. TAs receive a stipend (~$14,069/academic year) and a significant tuition reduction. These positions are awarded on a competitive basis, thus acceptance into the program does not guarantee receipt of a TA position.

Fall 2024 admission and consideration for a TA position application deadline is February 15, 2024. Start your application at https://gradapply.purdue.edu

**MASTER'S STUDENT RESEARCH ASSISTANT - CALIFORNIA STATE UNIVERSITY, MONTEREY BAY**

Are you passionate about environmental science, microbiology, molecular methods and looking to make a significant impact?

Join the research team at California State University, Monterey Bay (CSUMB) and contribute to the critical field of microbial bioremediation. We are seeking an enthusiastic and highly-motivated individual to fill a funded Master’s Graduate Student Research Assistant position who would play a key role in our project focused on the bioremediation of pesticides using bacteria and support ongoing work on the implementation and development of pesticide-remediating bioreactors for local agricultural lands.

Interested candidates should first submit the following materials to Dr. Nate Jue - njue@csumb.edu:
- Cover Letter & Resume/CV
- Transcripts
- Contact information for two academic or professional references.

Application Deadline: February 1, 2024
