Welcome Back! – Dr. Christie Klimas, ENV Chair

Dear ENV,

Welcome back! I hope you have enjoyed your summer and been able to explore the natural world in some fashion. We're excited to welcome you to campus for the first time if you're a new DePaul student or back to campus for our returning students!

I know some of you have been collecting research data and I'm excited to watch as you analyze that data and then present it at the CSH STEM Showcase in the fall, the ENV research showcase in the spring, and/or an external conference presentation. We have exciting opportunities to get involved from joining DUG (DePaul Urban Gardeners), adding a class to learn more about aquatic fauna and get out to nearby natural areas (only 2-credits so it fits in most schedules), and CSH Fest on September 25th. CSH Fest is a celebration of science where you can grab food and check out some hands-on science, play some of the games on the quad, or maybe engage with a furry friend.

And watch for more information on the ENV Welcome Back event to meet the ENV department and your student leaders. There will be food, fellowship, and an opportunity to find out what your peers have been up to over the summer. Students will be available to share the research that they have done with faculty. Interested in research but not sure how to introduce yourself to faculty? Join the welcome back activities and let current students introduce you to the faculty they work with (though we're highly approachable and you can just talk with us also). We'll send a date for that soon!

Welcome Back! – Dr. Christie Klimas, ENV Chair

Do you have more urgent questions about planning your courses for upcoming quarters or searching for jobs or internships? You don't have to wait until the Welcome back event. Feel free to e-mail or stop by the ENV office (McGowan South 203) to ask for answers to these questions and more.

I look forward to meeting you in person and am excited to welcome you to the Environmental Science and Studies (ENV) family!

Sincerely,
Christie/Dr. Klimas (ENV chair)

Maui Roots Reborn – We're Hiring!

Roots Reborn is a multicultural immigrant justice and disaster response organization dedicated to supporting migrant and immigrant communities on Maui and are hiring multiple positions!

Check out their postings on Indeed [HERE](#)

Morton Arboretum – Trees and Tacos Arboricultural Career Fair Fair

The Morton Arboretum's Chicago Region Trees Initiative 4th annual Trees and Tacos Arboricultural Career Fair Fair will take place on Friday, September 12, 2025, from 2–5:00 p.m. at the Thatcher Woods Pavilion in River Forest, IL. A great opportunity to network with a broad mix of tree industry professionals. There will be tree climbing , tacos, raffles and more. The first 100 attendees receive free tacos! Register [HERE](#)

ENV is hiring!

Are you interested in an on campus job, looking to be more involved on campus, or trying to boost your resume? Then check out the postions ENV is hiring for on the DePaul Job Board - found [HERE](#).

Especially of note is our ENV Community Engagement and Sustainability Committee Member position. Here you'd act as a part of a greater community within the Environmental Science and Studies department as an advocate for students!
