Additional Information (if needed):					

Please note that all prerequisites must be completed before the start of the term in which the student plans to enroll in the first nursing course. The prerequisite courses do not have to be completed before submitting an application. Students can begin the RN-MS in nursing program taking only the required liberal studies (general education) courses until all of the prerequisite courses have been completed. If the admission review committee needs more information on an applicant whose prerequisites are not complete, they may defer making a decision on the application until the review period for the next available term.
